MEMORANDUM FOR: Assistant for Plans and Development

ATTENTION :

[REDACTED]

SUBJECT : Authorization for Payment of Costs Incurred Under
PAR 226 of [REDACTED]

1. The cost of [REDACTED] for the Analysis of Photographic Images to Evaluate System Performance (PAR 226) was discussed with Cmdr. [REDACTED] at the Pentagon on Friday, 14 August 1964. [REDACTED] stated that initially it was agreed that Mission 1004-1 and 1004-2 would be charged to the [REDACTED] contract. Two other missions, however, occurred during this period namely 4005 and 4006. The Monthly Report covering the period 12 June through 9 July 1964 states that the Total Committed and Expended to 14 June 1964 for PAR 226 was [REDACTED] and that the report on 4006 concludes the effort under Contract [REDACTED]

2. [REDACTED] was informed of the total costs incurred during the period that PAR 226 was in effect. Although he and [REDACTED] had agreed upon a [REDACTED] expenditure for NPIC in support of this program, until (S)NRO could again finance it, [REDACTED] stated on this date that he would be willing to fund the entire [REDACTED]

11 June 1964

~~_____~~
 The discussion involving PAR 226- Analysis of
 Photographic Image to Evaluate System Performance - resolved
 the questions arising concerning a listing of the missions
 analyzed to date and ^{the} future status of the reports.

It has been requested that two copies of the ^{initial} micro-
 densitometer traces be sent to [redacted] 25

so that the undersigned can keep a record of all
 transmittals. One copy will be given to [redacted] EDLB, 25
 the other to [redacted] TID. ~~as further action is required~~

~~for the initial document support. Photostat copies will be~~
~~requested when justified.~~ The receipt of the initial traces
 will be valuable in film evaluation use and also make
 it available to the evaluation committee at an earlier
 time. Usual receipt of the completed mission report 25
 is approximately two weeks after the ~~film~~ ^{film} leaves [redacted]

(Arrival of P&T and TERO reports are later than
 this - usually one or two weeks). Two reports are actually
 produced for each mission - one is the Processing Summary
 of which [redacted] receives three ~~copies~~ ^{copies} and the other
 is the microdensitometer edge trace. The Processing Summary
 is available three days after the film leaves [redacted] and the traces 25
 about 11 working days after the film leaves [redacted]. The undersigned

The receipt of initial traces will allow for coordination with our film evaluation procedures and make the trace available to the evaluation committee at an earlier time.

arranged with to have a copy of
4005 and 4007 microdensitometer traces to be sent
to NPIC for distribution.

25X

PAR 226

Processing Summary

3 copies of ~~analysis~~ sent to []

25X

Change in format in different distribution Special format to A/F.

Let [] know what MIP frames to use.

Give [] an idea what areas are actually productive for evaluation namely resolution targets etc.

3 days after orig. learns the processing data available (P.S.)

Total report available ~~after~~ ^{after} (11 working days approx).

3 copies of report to be forwarded. 5 & 7 Micro to be sent by courier.

25X

Request that two copies be sent even though not covered under
Quarterly Report also requested ~~but~~ will have to check w/AF.

Approved For Release 2004/11/30 : CIA-RDP78B04770A000800090002-4

SECRET**WORKING PAPER**

19 May 1964

25X1 [] report, covering missions 1004-1 and 1004-2,
 25X1 has been received [] No report, however, was received by
 25X1 [] for mission 4005. In order to clarify the status of the
 edge trace program, the following information is requested:

1. Date of initiation of the original edge trace program
and by whom funded,
2. Date that funding was officially transferred to
Spectre under PAR 226 of [] 25X1
3. Date that you provided funding and assumed responsibility
of edge trace program,
4. Is the edge trace program still on a continuing basis
for each G and C mission?,
5. The possibility of [] receiving two copies of 25X1
report per mission in order to meet its in-house require-
ments,
6. A listing of the missions to date from which edge traces
have been made or are pending.

25X1 #4 & #5 covered during a conference with

[] office this date.

It was later requested of [] that two copies of the 25X1
 [] edge trace be sent to us prior to receipt of the TERO EPET
 reports - []
